Resource – Modern Greek language resource

Modern Greek

Language support resource

The Modern Greek Language support resource was developed to support teachers as they plan teaching and learning programs to implement the Australian Curriculum: Modern Greek. It is optional and includes illustrative examples of language and language use.

Introduction

The resource provides suggestions for sequential development in 2 parts:

- Part 1 – language features and structures
- Part 2 – thematic contexts for language use.

The content is presented in 3 broad levels: beginner, intermediate and advanced, and is independent of the year bands and sequences in the curriculum and the time spent on task.

Teachers can use suggestions in the resource to adapt curriculum content to meet the diverse language needs and learning backgrounds of students at different entry points into second language learning. For example, if a Year 5 student is learning Modern Greek for the first time, a teacher can use the cognitive demand of the Years 5 and 6 curriculum achievement standards and content descriptions combined with beginner language features and structures, and/or thematic contexts.

Language features and structures

Part 1 provides language features and structures that are neither exhaustive nor mutually exclusive across the 3 different levels. Beginner, intermediate and advanced levels demonstrate how a particular feature or structure could be developed at different stages of a continuum of second language learning.

Thematic contexts for language use

Part 2 provides examples of thematic contexts for language use at beginner, intermediate and advanced levels. They are designed to give teachers ideas about how to support a progression of learning related to contexts and concepts of language use. Teachers are encouraged to adapt these to allow for student agency and to meet the needs, abilities and interests of their students, using the approaches, methodologies and pedagogies that best suit their students' learning.

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Comprehension

- reads and views complex or some highly complex texts (see Text complexity)
- interprets abstract concepts integrating complex ideas
- analyses how language features are used to support the point of view in a text (e.g. the strategic use of images such as a cartoon in an editorial)
- draws inferences using evidence from the text and discounting possible inferences that are not supported by the text
- applies and articulates criteria to evaluate the language structures and features for relevance to purpose and audience
- evaluates the reasoning and evidence in a persuasive text
- explains how context (e.g. time, place, situation) influences interpretations of a text
- analyses the author's perspectives in complex or some highly complex texts
- analyses the techniques authors use to position readers
- recognises when ideas or evidence have been omitted from a text to position the reader

Processes

- automatically integrates a range of processes such as predicting, confirming predictions, monitoring and connecting relevant elements of the text, to build meaning
- describes how sophisticated cohesive devices establish patterns of meaning (e.g. "class" – "subclass")
- navigates extended texts including complex digital texts

Vocabulary

- demonstrates an understanding of nuances and subtleties in words of similar meaning (e.g. "frustrated", "discouraged", "baffled")
- verifies interpretations of unfamiliar words using grammatical and contextual cues

Comprehension

- reads and views highly complex texts (see Text complexity)
- interprets symbolism in texts, providing evidence to justify interpretation
- judiciously selects and synthesises evidence from multiple texts to support ideas and arguments
- analyses the credibility and validity of primary and secondary sources
- evaluates the use of devices such as analogy, irony, rhetoric and satire, and how they contribute to an author's individual style
- analyses the cumulative impact of use of language features and vocabulary across texts
- explains assumptions, beliefs and implicit values in texts (e.g. "economic growth is always desirable")
- evaluates the social, moral and ethical positions taken in texts

Processes

- strategically adjusts the processes of reading and viewing to build meaning according to the demands of tasks and texts
- identifies subtle contradictions and inconsistencies in texts

Vocabulary

- interprets complex, formal and impersonal language in academic texts
- uses lexical cues to interpret unfamiliar vocabulary
- demonstrates self-reliance in exploration and application of word learning strategies

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

- responds to complex texts (see Text complexity)
- identifies and analyses how spoken language is used for different effects
- explains the use of intonation, pausing, rhythm and phrasing to give emphasis and weight to ideas
- selects appropriate listening strategies for planned and unplanned situations (e.g. records and organises information from a text in a table or with detailed notes)
- explains how vocabulary is used for impact on the target audience
- responds to highly complex texts (see Text complexity)
- identifies and paraphrases key points of a speaker's arguments
- describes how listening skills should be applied, according to purpose
- evaluates strategies used by the speaker to elicit emotional responses
- explains any shift in direction, line of argument or purpose made by the speaker
- adopts and re-uses complex abstractions heard in texts
- explains how speakers' language can be inclusive or alienating (e.g. a speaker using language which is only readily understood by certain user groups such as teenagers or people involved in particular pastimes)

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Crafting ideas

- creates spoken texts which explore and interpret concepts drawn from research or learning area content
- selects voice appropriate to purpose (e.g. third person to create distance and authority or first person to achieve personal connection)
- develops complex ideas or a central theme across a spoken text
- uses language features according to purpose, to impact the audience (e.g. uses more complex connectives such as "consequently", "accordingly" to explain)
- rephrases or clarifies to repair or refine meaning
- uses language structures and features appropriate to learning area content
- uses technologies and visual and audio resources to enhance meaning and effect in presentations

Vocabulary

- selects vocabulary to intensify and sharpen the focus (e.g. "scarcely", "absolutely", "real", "simply")
- uses a range of evaluative language to express opinions or convey emotion (e.g. "significant benefits", "devastating consequences")
- uses a range of emotive language appropriate to topic, purpose and audience
- uses rich, evocative, descriptive language
- uses figurative language (e.g. "hungry for success")

Crafting ideas

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Crafting ideas

- creates informative texts to explain and analyse (e.g. analyses how artists use visual conventions in artworks)
- creates texts to compare and contrast phenomena (e.g. identify the similarities and differences between species of animals)
- orients the reader clearly to the topic or concept (e.g. using a definition or classification in the opening paragraph)
- intentionally selects structural elements for effect (e.g. includes an effective conclusion that synthesises complex ideas)
- uses evidence and research including digital resources to expand upon information and elaborate concepts

Text forms and features

- varies sentence structure for effect (see Grammar)
- judiciously uses language, visual and audio features to emotionally or intellectually affect the reader
- uses more elaborate noun groups/phrases that include classifying adjectives and specific nouns (e.g. "mineral component of sedimentary rocks")
- creates cohesive flow by condensing previous information into a summarising noun (e.g. "A series of tumultuous events culminated in the outbreak of WWI - modern history's turning point.")
- uses passive voice and nominalisation to write succinctly (e.g. "the results were analysed") (see Grammar)

Vocabulary

- uses discipline-specific terminology to provide accurate and explicit information (e.g. "discipline metalanguage")
- uses a range of synonyms for frequently occurring words, in a longer text (e.g. "repair", "fix", "remedy")
- uses vocabulary to indicate and describe relationships (e.g. "additionally", "similarly")

Crafting ideas

- creates sustained, informative texts that precisely explain, analyse and evaluate concepts or abstract entities
- uses structural features flexibly to organise ideas strategically (e.g. includes a defined, cogent conclusion or summation)
- creates texts with forms and features combined strategically for purpose (e.g. describes a historical event from the perspective of a secondary source)
- uses evidence and references
- creates succinct short-answer explanatory texts as well as complex, multi-staged extended texts

Text forms and features

- maintains tone appropriate to the audience
- uses extended noun groups/phrases including adjectival phrases (e.g. "a sturdy construction with modern design features") (see Grammar)

Vocabulary

- uses complex abstractions (e.g. "economic", "sociocultural")

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Crafting ideas

- creates imaginative texts with less predictable features to emotionally and intellectually engage the reader (e.g. writes to convey character perspective)
- includes relevant, rich, evocative description
- uses literary techniques such as dialogue and vivid description, to carry the plot, develop character and create a sense of place and atmosphere
- intentionally selects structural features (e.g. includes an unpredictable ending or circular plot)
- generates, selects and crafts ideas to support a theme
- selects text form or type to effectively support ideas (e.g. adventure story, short video which provides a fictional representation of a real event)

Text forms and features

- uses language features to engage reader (e.g. uses sensory imagery to build atmosphere)
- uses a range of figurative devices to effectively impact the reader (e.g. well-crafted metaphor)
- includes visual and audio resources to evoke mood or atmosphere of text
- varies sentence structure for effect (see Grammar)

Vocabulary

- uses words that create connotations (e.g. "startled", "dismayed")
- uses language that evokes an emotional response (e.g. "a piercing scream echoed through the

valley")

Crafting ideas

- creates sustained texts that develop more abstract themes or concepts in imaginative ways
- uses structural features flexibly to organise ideas strategically (e.g. deliberate repetition to reinforce a point or create a rhythmic flow)
- develops an imaginative text around a theme or social issue

Text forms and features

- uses stylistic features for effect (e.g. narrates from an omniscient point of view)
- uses recurring imagery for cohesion
- uses language to create humour (e.g. irony, satire)
- uses complementary noun and verb groups (e.g. "Through narrowed eyes she scrutinised the haggard face.") (see Grammar)

Vocabulary

- uses vocabulary for precision (e.g. "shrouded" for "covered")
- uses figurative language to create subtle and complex meaning (e.g. "offering a silent prayer to the deaf sky")

By the end of Year 10, students initiate and sustain Greek language to exchange and compare ideas and experiences about their own and others' personal world. They communicate using non-verbal, spoken and written language to collaborate, plan and reflect on activities and events. They interpret and analyse information and ideas in texts and demonstrate understanding of different perspectives. They synthesise information and respond in Greek or English, adjusting language to

convey meaning and to suit context, purpose and audience. They use structures and features of spoken and written Greek to create texts.

Students apply features of the Greek sound system to enhance fluency and demonstrate understanding of the sound system in spoken exchanges. They select and apply knowledge of language conventions, structures and features to interact, make meaning and create texts. They support discussion of structures and features of texts, using metalanguage. They reflect on their own language use and cultural identity, and draw on their experience of learning Greek, to discuss how this learning influences their ideas and ways of communicating.

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Crafting ideas

- creates spoken texts which explore and interpret concepts drawn from research or learning area content
- selects voice appropriate to purpose (e.g. third person to create distance and authority or first person to achieve personal connection)
- develops complex ideas or a central theme across a spoken text
- uses language features according to purpose, to impact the audience (e.g. uses more complex connectives such as "consequently", "accordingly" to explain)
- rephrases or clarifies to repair or refine meaning
- uses language structures and features appropriate to learning area content
- uses technologies and visual and audio resources to enhance meaning and effect in presentations

Vocabulary

- selects vocabulary to intensify and sharpen the focus (e.g. "scarcely", "absolutely", "real", "simply")
- uses a range of evaluative language to express opinions or convey emotion (e.g. "significant benefits", "devastating consequences")
- uses a range of emotive language appropriate to topic, purpose and audience
- uses rich, evocative, descriptive language
- uses figurative language (e.g. "hungry for success")

Crafting ideas

- creates complex and creative spoken texts which analyse and evaluate issues drawn from research or learning area content
- includes a range of alternative viewpoints in spoken texts, where appropriate
- controls and manipulates a sophisticated range of language features to affect the audience
- uses a range of rhetorical devices and humour to engage an audience
- references and quotes authorities or statistics to add authority (e.g. "according to a recent OECD

report")

- delivers spoken text flexibly, allowing for questions and maintaining the flow of ideas

Resource – Modern Greek language resource

Modern Greek

Language support resource

The Modern Greek Language support resource was developed to support teachers as they plan teaching and learning programs to implement the Australian Curriculum: Modern Greek. It is optional and includes illustrative examples of language and language use.

Introduction

The resource provides suggestions for sequential development in 2 parts:

- Part 1 – language features and structures
- Part 2 – thematic contexts for language use.

The content is presented in 3 broad levels: beginner, intermediate and advanced, and is independent of the year bands and sequences in the curriculum and the time spent on task.

Teachers can use suggestions in the resource to adapt curriculum content to meet the diverse language needs and learning backgrounds of students at different entry points into second language learning. For example, if a Year 5 student is learning Modern Greek for the first time, a teacher can use the cognitive demand of the Years 5 and 6 curriculum achievement standards and content descriptions combined with beginner language features and structures, and/or thematic contexts.

Language features and structures

Part 1 provides language features and structures that are neither exhaustive nor mutually exclusive across the 3 different levels. Beginner, intermediate and advanced levels demonstrate how a particular feature or structure could be developed at different stages of a continuum of second language learning.

Thematic contexts for language use

Part 2 provides examples of thematic contexts for language use at beginner, intermediate and advanced levels. They are designed to give teachers ideas about how to support a progression of learning related to contexts and concepts of language use. Teachers are encouraged to adapt these to allow for student agency and to meet the needs, abilities and interests of their students, using the approaches, methodologies and pedagogies that best suit their students' learning.

Content description

AC9LMG10EU02

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Grammatical accuracy

- makes few grammatical errors, such as inappropriate tense selections or lack of agreement between subject and verb

Group and word level

- uses an extended range of verbs and verb groups for a particular effect (e.g. characterisation - "howls", "was trembling"; and expressing causality – "results in")
- adjusts tense in a text if required (e.g. uses simple present tense to represent "timeless" happenings (e.g. "bears hibernate in winter") and uses continuous present tense when referring to an ongoing event (e.g. "bears are becoming extinct")
- creates elaborated noun groups to build richer description by extending the noun group/phrase (e.g. "that naughty, little cattle dog, with the crooked tail, that ran away last week")
- uses possessive pronouns (e.g. "his", "hers", "theirs") and relative pronouns (e.g. "who", "which", "whom")
- uses adverbials to represent a greater range of circumstances (e.g. time – "subsequently"; place – "in their environment"; manner – "excitedly"; reason – "due to several factors")

Sentence level

- selects simple, compound and complex sentences to express and connect ideas, occasionally manipulating the structure for emphasis, clarity or effect
- uses subordinating conjunctions (e.g. "even though" in "Even though a storm was predicted, the search and rescue mission still went ahead.")

Whole text level

- uses cohesive devices to alert the reader about how the text is unfolding (e.g. foreshadowing the key points at the beginning, reinforcing the key points with topic sentences, and linking back to key points in the conclusion)

Grammatical accuracy

- writes well-structured texts, rarely making grammatical errors

Group and word level

- presents elaborated verb groups that capture nuances and complex expressions of time and probability (e.g. "he was thought to have been arriving late"; "the errors could be attributed to faulty equipment")
- selects from succinct noun groups/phrases through to highly elaborated noun groups/phrases for effect, clarity or complexity of description
- uses nominalisations to create concise noun groups/phrases
- intentionally uses a wide array of adverbials to represent a greater variety of circumstances (e.g. "with whom?" "to what extent?" "how much?" "in what role?" "by what means?" "in what manner?"

"compared to what?")

- maintains subject-verb agreement in complex sentences

Sentence level

- crafts both compact and lengthy sentences with challenging structures, such as embedded/relative clauses, non-finite clauses, interrupting clauses, nominalisations, passive voice
- makes more sophisticated connections between ideas by creating complex sentences expressing relationships of cause, reason, concession

Whole text level

- uses a wide range of cohesive devices such as text connectives that link sentences and paragraphs, and patterns of meaning (e.g. part-whole, class-subclass, compare-contrast, cause and effect)
