

Level description: Years 5 and 6

In Years 5 and 6, French language learning builds on each student's prior learning and experiences with language . Students communicate and work in collaboration with peers and teachers in purposeful, creative and structured activities involving listening , speaking , reading and viewing, and writing . They interact in French to exchange information and ideas relating to their interests, school and local environment, and engage with French-speaking communities in person or via digital access. They work independently and in groups with ongoing support from modelling, and from digital and print resources. Students engage with a range of spoken, written and multimodal texts that may include stories, posters, notes, invitations and procedures. They use their English literacy knowledge to identify French language structures and features. They understand that some words and expressions are not easily translated, and reflect on how diverse cultural practices, behaviours and values influence communication and identity .

Achievement standard: Years 5 and 6

By the end of Year 6, students initiate and use strategies to maintain interactions in French language that are related to their immediate environment. They use appropriate sound combinations, intonation and rhythm in spoken texts. They collaborate in spoken and written activities that involve the language of planning and problem-solving to share information, ideas and preferences. They use strategies to locate and interpret information and ideas in texts, and demonstrate understanding by responding in French or English, adjusting their response to context, purpose and audience. They create texts, selecting and using a variety of vocabulary and sentence structures to suit context. They sequence information and ideas, and use conventions appropriate to text type. Students apply rules for pronunciation and intonation, spelling and punctuation, and modelled structures, when creating and responding in French. They compare language structures and features in French and English, using some metalanguage. They show understanding of how some language reflects cultural practices and consider how this is reflected in their own language(s), culture(s) and identity.
