investigate the ways that artists across , times, places and/or other contexts develop in their visual arts practice to represent, communicate and/or challenge ideas, perspectives and/or meaning

-
-

Elaborations

- analysing a selection of artworks that represent a point of view on the same or similar theme, story, historical event, place, time, use of a technique or , noting the differences and similarities in the range of artworks and how an artist's lived experience and cultural forces can have an impact on perspectives found in their work
- investigating how linear timelines, in contrast to circular timelines, can shift meaning in art with reference to First Nations Australian ways of knowing, being and doing
- researching, analysing and evaluating the ways that artists from different times and places represent subject matter, themes or concepts, such as portraiture, freedom and social change or identity, using a range of and conventions
- creating extended written, oral or multimedia accounts, such as essays, pod/vodcast, debate or reviews, that discuss and explain how artists have represented their ideas in their artworks and artist practices
- selecting different critical viewpoints to develop explanations about artists' approaches and works at different times and in different contexts
- exploring the development of a visual arts form over time, considering the impact of globalisation, cultural practices, and new discoveries in and technologies; for example, wood block printing or photography

Students learn to:

Resource – Visual Arts Examples of knowledge and skills

Visual Arts

Support resource – Examples of knowledge and skills

Examples unpack the knowledge and skills in Visual Arts in relation to visual conventions, visual

arts processes and visual arts practices, and provide a suggested sequence for their introduction and development.

Introduction

Visual conventions are traditional, cultural and/or stylistic ways of working in visual arts, craft and design. They reflect agreed expectations for various art forms such as painting or sculpture. Visual conventions are impacted by factors such as the time and culture they were created in and the choice of materials. They include the elements and principles of art/design.

Visual arts processes are the processes used to create artworks. They include methods, tools, techniques and technologies relevant to the selected visual arts form. Visual arts processes involve working with 2D, 3D or 4D visual arts forms.

Visual arts practices are the ways that artists go about their work. They include exploring ideas for artworks, working with ideas and responding to artworks.

The examples are suggestions only and are neither prescriptive nor exhaustive. Teachers can draw from these examples to:

- make decisions about the order and pace with which they introduce and develop knowledge and skills
- support differentiation and meeting the needs of students with diverse learning needs
- plan Arts learning across a range of delivery contexts, such as multi-disciplinary units across

The Arts and other learning areas.

Throughout their Visual Arts learning, students use questions based on Viewpoints (personal and imaginative, cultures and worlds, conventions, and processes) as an inquiry tool for considering their visual arts practice from multiple perspectives, as artist or as audience. Suggested questions that explore the Viewpoints are included alongside the examples of knowledge and skills. These may be asked by teachers and students when they are learning about or with the visual arts knowledge or skill.

Teachers are best placed to make decisions about the examples and questions that will best suit their students and context. Graphics suggest an introductory point for each of the knowledge and skill examples.

Resource – WS01 - Assemblage inspirations

By the end of Year 10, students analyse how and why visual conventions, visual arts processes and materials are manipulated in artworks they create and/or experience. They evaluate how and why artists from across cultures, times, places and/or other contexts use visual conventions, visual arts processes and materials in their visual arts practice and/or artworks to represent and/or challenge ideas, perspectives and/or meaning.■They evaluate how visual arts are used to celebrate and challenge perspectives of Australian identity.

Students draw on inspiration from multiple sources to generate and develop ideas for artworks.■They document and reflect on their own visual arts practice.■They use knowledge of visual conventions, visual arts processes and materials to create artworks that represent and/or communicate ideas, perspectives and/or meaning. They curate and present exhibitions of their own and or/others' artworks and visual arts practice to engage audiences.

investigate the ways that First Nations Australian artists celebrate and challenge multiple perspectives of Australian identity through their artworks and visual arts practice

-
-

Elaborations

- researching a diverse range of artworks or designs such as artworks in galleries, protest posters or street art in order to analyse how and why First Nations Australian artists have used visual communication as a tool to express activism for change
- analysing the ways that First Nations Australian artists use their practices to challenge and inform community debate and present multiple ways of understanding an issue; for example, understandings about “first contacts” between the First Nations Peoples of Australia and people from Britain or Europe
- comparing, analysing and evaluating ways that contemporary First Nations Australian artists and designers are exploring and challenging concepts and histories of Australia and Australian identity
- exploring the ways that First Nations Australian visual artists use their practices to communicate ideas, messages and lived experiences to the broader community
- understanding ways that the arts provide opportunities for First Nations Australian artists and designers to continue and develop their culture
- investigating how First Nations Australian visual artists are caring for , culture and people through the visual arts; for example, by working with representatives of the First Nations Australian community to explore how local groups are caring for the local environment and highlighting these issues through visual arts projects, such as campaigns that focus on environmental issues

General capabilities and cross-curriculum priorities

This content description connects to the following general capabilities and cross-curriculum priorities.

Engaging with cultural and linguistic diversity

- Develop empathy

Reflecting on culture and cultural diversity

- Examine cultural perspectives and world views

Navigating intercultural contexts

- Respond to biases, stereotypes, prejudices and discrimination

Culture

- First Nations Australians' ways of life reflect unique ways of being, knowing, thinking and doing.
- The First Peoples of Australia (Aboriginal Peoples) belong to the world's oldest continuous cultures. First Nations Australians demonstrate resilience in the maintenance, practice and revitalisation of culture despite the many historic and enduring impacts of colonisation, and continue to celebrate and share the past, present and future manifestations of their cultures.

Country/Place

- The occupation and colonisation of Australia by the British, under the now overturned doctrine of terra nullius , were experienced by First Nations Australians as an invasion that denied their

occupation of, and connection to, Country/Place.

- The First Peoples of Australia are the Traditional Owners of Country/Place, protected in Australian Law by the Native Title Act 1993 which recognises pre-existing sovereignty, continuing systems of law and customs, and connection to Country/Place. This recognised legal right provides for economic sustainability and a voice into the development and management of Country/Place.

People

- Australia has 2 distinct First Nations Peoples; each encompasses a diversity of nations across Australia. Aboriginal Peoples are the first peoples of Australia and have occupied the Australian continent for more than 60,000 years. Torres Strait Islander Peoples are the First Nations Peoples of the Torres Strait and have occupied the region for over 4,000 years.

- experimenting with the properties of a medium or form and investigating/exploring, in depth, the technical processes associated with that form in order to develop a comprehensive understanding of the ways that they can use it to represent their ideas in their own visual arts practice
- interrogating multiple ways of approaching an activity; for example, using a diverse range of media to express different interpretations of the one topic, such as producing several sketches of the one object using different media with each one exploring a different emotion
- investigating a diverse selection of artists through their sketchbooks to uncover their practices, and find connections between their processes and the development of their
- developing an “inspiration” journal of collections from everyday life, such as photographs, found objects, experiments with media, thoughts and ideas, and using questions based on Viewpoints to interrogate their “inspiration” journal and begin identifying their own personal ; for example, "What am I drawn to, and why is this important to me?"
- documenting and evaluating their investigations of visual art processes, visual conventions and in a diary, portfolio or digital journal; for example, annotating the processes used and using Viewpoints to develop questions to deepen their understanding of the concepts explored or processes used, such as "Have I pushed and explored this idea, medium or technique as far as I can?", "What is the problem, and how can I find multiple possible solutions?", "What happens when I ...?", "What did I learn from this ...?", "How can it inform my future art-making?"
- drawing lines, shapes and arrows drawn over photocopies of artworks and using a code to demonstrate their understanding of the way the artist has composed the artwork to communicate

meaning; for example, using lines to trace over an artwork to show composition techniques, such as rule of thirds, creating movement using diagonal and or curved lines, repetition and pattern, or the use of visual hierarchy to indicate how the viewer's eye follows the layout of a designed product

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Identifies ratios as a part-to-part comparison

- represents ratios using diagrams, physical or virtual materials (e.g. in a ratio 1 : 4 of red to blue counters, for each red counter there are 4 blue counters; uses physical or virtual materials to represent the ratio of hydrogen atoms to oxygen atoms in water molecules as 2 : 1, 2 hydrogen atoms for every oxygen atom)
- interprets ratios as a comparison between 2 like quantities (e.g. ratio of students to teachers in a school is 20 : 1; ratio of carbohydrates to fat to protein in a food; interprets ratios such as debt equity ratio or savings-income ratio)
- interprets a rate as a comparison between 2 different types of quantities (e.g. water flow can be measured at a rate of 5 litres per second; change of concentration of reactants per time; the relationship between beats per minute and the pulse/rhythm of a dance phrase)
- expresses a ratio as equivalent fractions or percentages (e.g. the ratio of rainy days to fine days in Albany is 1 : 2 and so $\frac{1}{2}$ of the days are rainy; in a ratio of 1 : 1 each part represents one $\frac{1}{2}$ or 50 % of the whole; when interpreting food labels and making healthy eating choices)

Using ratios and rates

- uses a ratio to create, increase or decrease quantities to maintain a given proportion (e.g. creates mixtures such as adhesives, finishes, salad dressings; scales a recipe up or down; makes 100 100 1 0 0 litres of cordial given instructions for making 5 5 5 litres using one part cordial to 6 6 6 parts water)
- uses rates to determine how quantities change (e.g. when travelling at a constant speed of 60 60 6 0 km/h, determines the distance travelled in 30 30 3 0 minutes; uses price rate of change to measure the direction and speed of a financial trend, such as an upward momentum in stock prices; compares the effect of different frame rates, frames per second, when producing a slow-motion sequence)

Proportionality and the whole

- determines the whole given a percentage (e.g. given 20 20 2 0 % is 13 13 1 3 millilitres, determines the whole is 65 65 6 5 millilitres; given 20 20 2 0 % is 1300 1300 1 3 0 0 kilojoules, determines the whole is 6500 6500 6 5 0 0 kilojoules when calculating the amount of energy consumed as part of a daily recommended intake)
- identifies the common unit rate to compare rates expressed in different units (e.g. calculates best buys; compares the relative speed of 2 2 2 vehicles)
- identifies, compares, represents and solves problems involving different rates in real world contexts (e.g. measures heart rate and breathing rate to monitor the body's reaction to a range of physical activities)
- determines the equivalence between 2 2 2 rates or ratios by expressing them in their simplest form
- describes how the proportion is preserved when using a ratio (e.g. uses the ratio 1 : 4 : 15 1:4:15 1 : 4 : 1 5 for the composition of silver, copper and gold to determine the mass of copper in a rose gold ring that weighs 8 8 8 grams; applies an aspect ratio when resizing images of an artwork such as if the aspect ratio is 3 : 2 3:2 3 : 2 then a picture that is 600 600 6 0 0 pixels wide would be 400 400 4 0 0 pixels tall)

Resource – Visual Arts Examples of knowledge and skills

Visual Arts

Support resource – Examples of knowledge and skills

Examples unpack the knowledge and skills in Visual Arts in relation to visual conventions, visual arts processes and visual arts practices, and provide a suggested sequence for their introduction and development.

Introduction

Visual conventions are traditional, cultural and/or stylistic ways of working in visual arts, craft and design. They reflect agreed expectations for various art forms such as painting or sculpture. Visual conventions are impacted by factors such as the time and culture they were created in and the choice of materials. They include the elements and principles of art/design.

Visual arts processes are the processes used to create artworks. They include methods, tools, techniques and technologies relevant to the selected visual arts form. Visual arts processes involve working with 2D, 3D or 4D visual arts forms.

Visual arts practices are the ways that artists go about their work. They include exploring ideas for artworks, working with ideas and responding to artworks.

The examples are suggestions only and are neither prescriptive nor exhaustive. Teachers can draw from these examples to:

- make decisions about the order and pace with which they introduce and develop knowledge and skills
- support differentiation and meeting the needs of students with diverse learning needs
- plan Arts learning across a range of delivery contexts, such as multi-disciplinary units across The Arts and other learning areas.

Throughout their Visual Arts learning, students use questions based on Viewpoints (personal and imaginative, cultures and worlds, conventions, and processes) as an inquiry tool for considering their visual arts practice from multiple perspectives, as artist or as audience. Suggested questions that explore the Viewpoints are included alongside the examples of knowledge and skills. These may be asked by teachers and students when they are learning about or with the visual arts knowledge or skill.

Teachers are best placed to make decisions about the examples and questions that will best suit their students and context. Graphics suggest an introductory point for each of the knowledge and skill examples.

Resource – WS01 - Assemblage inspirations

By the end of Year 10, students analyse how and why visual conventions, visual arts processes and materials are manipulated in artworks they create and/or experience. They evaluate how and why artists from across cultures, times, places and/or other contexts use visual conventions, visual arts processes and materials in their visual arts practice and/or artworks to represent and/or challenge ideas, perspectives and/or meaning. ■ They evaluate how visual arts are used to celebrate and challenge perspectives of Australian identity.

Students draw on inspiration from multiple sources to generate and develop ideas for artworks. ■ They document and reflect on their own visual arts practice. ■ They use knowledge of visual conventions, visual arts processes and materials to create artworks that represent and/or communicate ideas, perspectives and/or meaning. They curate and present exhibitions of their own and or/others' artworks and visual arts practice to engage audiences.

AC9AVA10E01

investigate the ways that artists across ■ cultures, times, places and/or other contexts develop ■ personal expression ■ in their visual arts practice to represent, communicate and/or challenge ideas, perspectives and/or meaning

AC9AVA10D01

experiment with visual conventions, visual arts processes and ■ materials ■ to refine skills and develop ■ personal expression

AC9AVA10D02

reflect on the way they and other visual artists respond to influences to inspire, develop and resolve choices they make in their own visual arts practice

AC9AVA10C01

evaluate critical feedback when planning, developing and refining their visual arts practice

AC9AVA10C02

select and manipulate visual conventions, visual arts processes and/or ■ materials ■ to create artworks that reflect ■ personal expression, and represent and/or challenge, ideas, perspectives and/or meaning

AC9AVA10D02

reflect on the way they and other visual artists respond to influences to inspire, develop and resolve choices they make in their own visual arts practice

-
-

Elaborations

- investigating and reflecting on the role and influence of their own culture, family or personal experiences when developing ideas for artworks
- investigating a diverse range of visual artists; for example, artists who live and work in a different place, such as a country in the , and reflecting on accounts of them discussing influences on their work and practices, in order to develop an understanding of the many factors that can shape their own visual arts practice
- analysing and reflecting on the ways that artists have structured their artworks to represent ideas; for example, using Viewpoints to generate questions to facilitate their understanding of the artists' intentions
- reflecting on, evaluating and resolving their choices for representing their ideas as their work progresses; for example, through informal discussions or reviews, or in written/oral/multimedia

evaluations, such as journals

- exploring current issues that are of importance to them, such as global or local issues, as a starting point for generating and reflecting on ideas for artworks that explore themes/concepts such as sustainable futures, wellbeing and emotional health, or human rights issues
- investigating the ways that artists use their visual arts practice to explore, examine, resolve or represent personal experiences and expressions as a starting point to understand how they can use their own visual arts practice to explore and respectfully/safely represent personal issues, such as self-awareness, emotional awareness and personal wellbeing

Students learn to:

reflect on the way they and other visual artists respond to influences to inspire, dev
resolve choices they make in their own visual arts practice

Resource – Visual Arts Examples of knowledge and skills

Visual Arts

Support resource – Examples of knowledge and skills

Examples unpack the knowledge and skills in Visual Arts in relation to visual conventions, visual arts processes and visual arts practices, and provide a suggested sequence for their introduction and development.

Introduction

Visual conventions are traditional, cultural and/or stylistic ways of working in visual arts, craft and design. They reflect agreed expectations for various art forms such as painting or sculpture. Visual conventions are impacted by factors such as the time and culture they were created in and the choice of materials. They include the elements and principles of art/design.

Visual arts processes are the processes used to create artworks. They include methods, tools, techniques and technologies relevant to the selected visual arts form. Visual arts processes involve working with 2D, 3D or 4D visual arts forms.

Visual arts practices are the ways that artists go about their work. They include exploring ideas for artworks, working with ideas and responding to artworks.

The examples are suggestions only and are neither prescriptive nor exhaustive. Teachers can draw from these examples to:

- make decisions about the order and pace with which they introduce and develop knowledge and skills
- support differentiation and meeting the needs of students with diverse learning needs
- plan Arts learning across a range of delivery contexts, such as multi-disciplinary units across The Arts and other learning areas.

Throughout their Visual Arts learning, students use questions based on Viewpoints (personal and imaginative, cultures and worlds, conventions, and processes) as an inquiry tool for considering their visual arts practice from multiple perspectives, as artist or as audience. Suggested questions that explore the Viewpoints are included alongside the examples of knowledge and skills. These may be asked by teachers and students when they are learning about or with the visual arts knowledge or skill.

Teachers are best placed to make decisions about the examples and questions that will best suit their students and context. Graphics suggest an introductory point for each of the knowledge and skill examples.

Resource – WS01 - Assemblage inspirations

By the end of Year 10, students analyse how and why visual conventions, visual arts processes and materials are manipulated in artworks they create and/or experience. They evaluate how and why artists from across cultures, times, places and/or other contexts use visual conventions, visual arts processes and materials in their visual arts practice and/or artworks to represent and/or challenge ideas, perspectives and/or meaning.■They evaluate how visual arts are used to celebrate and challenge perspectives of Australian identity.

Students draw on inspiration from multiple sources to generate and develop ideas for artworks.■They document and reflect on their own visual arts practice.■They use knowledge of visual conventions, visual arts processes and materials to create artworks that represent and/or communicate ideas, perspectives and/or meaning. They curate and present exhibitions of their own and or/others' artworks and visual arts practice to engage audiences.

AC9AVA10E01

investigate the ways that artists across■cultures, times, places and/or other contexts develop■personal expression■in their visual arts practice to represent, communicate and/or challenge ideas, perspectives and/or meaning

AC9AVA10D01

AC9AVA10C02

select and manipulate visual conventions, visual arts processes and/or to create artworks that reflect , and represent and/or challenge, ideas, perspectives and/or meaning

-
-

Elaborations

- creating artworks that realise the intentions and communicate ideas developed through their

experimentation and planning

- researching approaches to representing their ideas and interests in the world/subjects or concepts from a particular viewpoint or a range of viewpoints in order to plan and refine their approach
- recording and documenting their research into their subject using their own images or images from other sources, written annotations, and comments and evaluations
- initiating their own ways of resolving ideas and concepts visually, using creative problem-solving throughout the process of creating their final artworks
- creating their own artworks in response to a specific subject, theme or idea, using , techniques and conventions in intentional, interpretative and personal ways
- applying their knowledge and understanding of visual arts processes and to create artworks; for example, demonstrating understanding of sculptural techniques, space and form to create a site-specific 3D work, or a range of painting techniques to create the illusion of texture and form in a landscape painting

Students learn to:

select and manipulate visual conventions, visual arts processes and/or materials to that reflect personal expression, and represent and/or challenge, ideas, perspective
