Resource – French language resource

French

Language support resource

The French Language support resource was developed to support teachers as they plan teaching and learning programs to implement the Australian Curriculum: French. It is optional and includes illustrative examples of language and language use.

Introduction

The resource provides suggestions for sequential development in 2 parts:

- Part 1 – language features and structures
- Part 2 – thematic contexts for language use.

The content is presented in 3 broad levels: beginner, intermediate and advanced, and is independent of the year bands and sequences in the curriculum and the time spent on task.

Teachers can use suggestions in the resource to adapt curriculum content to meet the diverse language needs and learning backgrounds of students at different entry points into second language learning. For example, if a Year 5 student is learning French for the first time, a teacher can use the cognitive demand of the Years 5 and 6 curriculum achievement standards and content descriptions combined with beginner language features and structures, and/or thematic contexts.

Language features and structures

Part 1 provides language features and structures that are neither exhaustive nor mutually exclusive across the 3 different levels. Beginner, intermediate and advanced levels demonstrate how a particular feature or structure could be developed at different stages of a continuum of second language learning.

Thematic contexts for language use

Part 2 provides examples of thematic contexts for language use at beginner, intermediate and advanced levels. They are designed to give teachers ideas about how to support a progression of learning related to contexts and concepts of language use. Teachers are encouraged to adapt these to allow for student agency and to meet the needs, abilities and interests of their students, using the approaches, methodologies and pedagogies that best suit their students' learning.

Resource – WS02 - Test oral (Speaking test)

By the end of Year 10, students initiate and sustain French language to exchange and compare ideas and experiences about their own and others' personal world. They communicate using non-verbal, spoken and written language to collaborate, plan and reflect on activities and events. They interpret and analyse information and ideas in texts and demonstrate understanding of different perspectives. They synthesise information and respond in French or English, adjusting language to convey meaning and to suit context, purpose and audience. They use structures and features of spoken and written French to create texts.

Students apply features of the French sound system to enhance fluency and demonstrate understanding of the sound system in spoken exchanges. They select and apply knowledge of language conventions, structures and features to interact, make meaning and create texts. They support discussion of structures and features of texts, using metalanguage. They reflect on their own language use and cultural identity, and draw on their experience of learning French, to discuss how this learning influences their ideas and ways of communicating.

Resource – French language resource

French

Language support resource

The French Language support resource was developed to support teachers as they plan teaching and learning programs to implement the Australian Curriculum: French. It is optional and includes illustrative examples of language and language use.

Introduction

The resource provides suggestions for sequential development in 2 parts:

- Part 1 – language features and structures
- Part 2 – thematic contexts for language use.

The content is presented in 3 broad levels: beginner, intermediate and advanced, and is independent of the year bands and sequences in the curriculum and the time spent on task.

Teachers can use suggestions in the resource to adapt curriculum content to meet the diverse language needs and learning backgrounds of students at different entry points into second language learning. For example, if a Year 5 student is learning French for the first time, a teacher can use the cognitive demand of the Years 5 and 6 curriculum achievement standards and content descriptions combined with beginner language features and structures, and/or thematic contexts.

Language features and structures

Part 1 provides language features and structures that are neither exhaustive nor mutually exclusive across the 3 different levels. Beginner, intermediate and advanced levels demonstrate how a particular feature or structure could be developed at different stages of a continuum of second language learning.

Thematic contexts for language use

Part 2 provides examples of thematic contexts for language use at beginner, intermediate and advanced levels. They are designed to give teachers ideas about how to support a progression of learning related to contexts and concepts of language use. Teachers are encouraged to adapt these to allow for student agency and to meet the needs, abilities and interests of their students, using the approaches, methodologies and pedagogies that best suit their students' learning.

Learning progression extract

The following learning progression extract shows the alignment of the learning progression with this content.

Grammatical accuracy

- makes few grammatical errors, such as inappropriate tense selections or lack of agreement between subject and verb

Group and word level

- uses an extended range of verbs and verb groups for a particular effect (e.g. characterisation - "howls", "was trembling"; and expressing causality – "results in")
- adjusts tense in a text if required (e.g. uses simple present tense to represent "timeless" happenings (e.g. "bears hibernate in winter") and uses continuous present tense when referring to an ongoing event (e.g. "bears are becoming extinct")
- creates elaborated noun groups to build richer description by extending the noun group/phrase (e.g. "that naughty, little cattle dog, with the crooked tail, that ran away last week")
- uses possessive pronouns (e.g. "his", "hers", "theirs") and relative pronouns (e.g. "who", "which", "whom")
- uses adverbials to represent a greater range of circumstances (e.g. time – "subsequently"; place – "in their environment"; manner – "excitedly"; reason – "due to several factors")

Sentence level

- selects simple, compound and complex sentences to express and connect ideas, occasionally manipulating the structure for emphasis, clarity or effect
- uses subordinating conjunctions (e.g. "even though" in "Even though a storm was predicted, the search and rescue mission still went ahead.")

Whole text level

- uses cohesive devices to alert the reader about how the text is unfolding (e.g. foreshadowing the key points at the beginning, reinforcing the key points with topic sentences, and linking back to key points in the conclusion)

Grammatical accuracy

- writes well-structured texts, rarely making grammatical errors

Group and word level

- presents elaborated verb groups that capture nuances and complex expressions of time and probability (e.g. "he was thought to have been arriving late"; "the errors could be attributed to faulty equipment")
- selects from succinct noun groups/phrases through to highly elaborated noun groups/phrases for effect, clarity or complexity of description
- uses nominalisations to create concise noun groups/phrases
- intentionally uses a wide array of adverbials to represent a greater variety of circumstances (e.g. "with whom?" "to what extent?" "how much?" "in what role?" "by what means?" "in what manner?" "compared to what?")
- maintains subject-verb agreement in complex sentences

Sentence level

- crafts both compact and lengthy sentences with challenging structures, such as embedded/relative clauses, non-finite clauses, interrupting clauses, nominalisations, passive voice
- makes more sophisticated connections between ideas by creating complex sentences expressing relationships of cause, reason, concession

Whole text level

- uses a wide range of cohesive devices such as text connectives that link sentences and paragraphs, and patterns of meaning (e.g. part-whole, class-subclass, compare-contrast, cause and effect)
